Bayser is a Chicago-based management consulting firm that specializes in sales and marketing for pharmaceutical, medical devices, and diagnostics manufacturers. Bayser uses techniques from Artificial Intelligence, Operations Research, Statistics, Physics, Mathematics, Economics, Finance, and Marketing to analyze clients' needs, build models, and develop recommendations. Bayser is bilingual in the sense that their consultants are fluent both in the technical and business areas. The ability to bridge the gap between those two worlds is actually one of Bayser's core assets. Bayser pursues two inter-related goals. First, offer impeccable service. Second, build a sales and marketing optimization science that helps better serve clients. Bayser counts top pharmaceutical companies as clients and enjoys excellent reputation. In addition, Bayser publishes extensively in leading trade magazines.

Bayser provides equal employment opportunity regardless of race, age, religion, color, gender, national origin, disability, marital status, weight, height, veteran status, or other classifications as required by applicable federal, state, or local law.
